

SPECIFICATION AMENDMENTS

Please Replace Table 3 at the top of page 15 with the following Table 3:

TABLE 3. Immunohistochemical results in the colorectal carcinoma tissue and in the histopathologically negative remaining colorectal tissue of the same tumor patient (of patients with continuous numbers 1 through 25, patients nos. 1 through 18 are included in PCR).

Patient	Carcinoma Tissue	Remaining intestine of the resected tis- sue histologically negative
1-18	Positive	Negative
19-25	Positive	Positive
